

JC2H Dual HDMI Video Capture Card

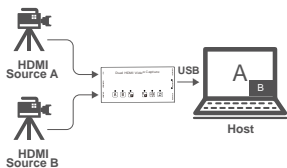

Dual HDMI video capture card is a Full HD video and audio high-performance record/playback through USB-C and PGM output, capturing dual HDMI input and an analog audio input. It has a built-in audio mixer function, allowing users to toggle between different audio settings and three audio inputs. Based on UVC standard, the device features a laptop/phone or live broadcast software fast connection with the system-supplied driver. Moreover, its lightweight design and intuitive plug-and-play USB make it possible to fit in any case so that you can take it to any live event or production.

Feature Highlights

- Dual HDMI input for capturing 2 channels
- 1 HDMI output(PGM) for streaming video
- High-Definition Video at 1080p/60fps
- 6 Screen Mode Configurations
- High-quality aluminum alloy CNC shell features both metal texture and durability
- Support operating systems of Windows, Mac OS, Android

More Details

2 HDMI to USB-C

Dual HDMI input enables you to capture uncompressed 1080p video from 2 channels simultaneously.

High-Definition Video

Support to capture uncompressed video at 1080p/60fps and HDMI loop out (PGM out) at 1080p/60fps.

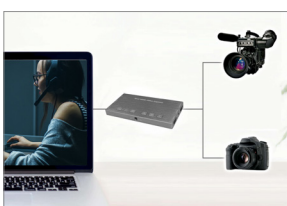

6 Screen Mode Configurations

Adjust the display settings by built-in buttons, enabling PIP (Picture-in-Picture), PBP (Picture-by-Picture), etc.

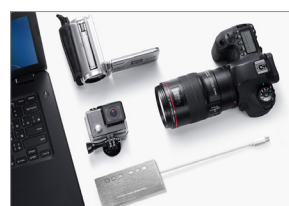

Easy & Quick DSLR Installation

It can be fixed on the bracket through a 1/4 "hot hole for better live streaming.

Driver-free Installation

The UVC is available to work automatically with the system-supplied driver.

Ideal for Live Streaming

A flexible audio connection is equipped so that you can record audio directly from PC output to speakers/mixers.
